Burgerdudes Reveal The World's 25 Best Burgers 2026

Hundred Burgers Make History with its Third Consecutive #1 Ranking

FOR IMMEDIATE RELEASE
[Stockholm, Sweden — April 29, 2026]

Today, Burgerdudes released **The World's 25 Best Burgers 2026**, the latest annual edition of its internationally recognized ranking of the best burgers across the globe. The entire list is available at theworldsbestburgers.com, with images and motivations.

Following a year of extensive travel and in-depth reviews, Burgerdudes have once again identified the world's top burger destinations. This year marks a historic achievement as **Hundred Burgers**, based in Madrid and Valencia, claim the number one position for the third consecutive year.

"*Hundred Burgers' craftsmanship and approach is unmatched, from the phenomenal Rubia Gallega beef they age themselves to their artisan Japanese milk bun. Simply put, they are the best in the world*", says Toby Lee, Editor-in-Chief at Burgerdudes.

Brazil's **Holy Burger** in São Paulo climbs to second place, while **Au Cheval**, with locations in Chicago and New York, secures third place and continues to represent the pinnacle of burger excellence in the United States. On the smash burger front, Sweden's **Funky Chicken Food Truck** in Stockholm is now ranked as the world's best smash burger.

This year's list introduces several standout newcomers from around the world, including MeatCastles, Black Cactus & Dove, (England), Will's & Goldieboy (Australia), BDP Burger (Spain) and Gui's Burger (Japan). These additions reflect the diversity and evolution of the global burger scene, from innovative food trucks to refined restaurant concepts.

The World's Best Burgers is curated by Burgerdudes.com, widely recognized as *"The Michelin Guide for Burgers"**. Since 2014, Burgerdudes have visited more than 1,000 restaurants across 65 countries, publishing up to five new reviews each week. Each review is conducted independently by the Burgerdudes team, with no guest judges, external contributors or regional bias. The ranking showcases a wide spectrum of burger styles, from perfectly executed smash burgers to thick, juicy patties crafted with precision and passion.
